

Model:	BEN	Protection Class:	S3 SRC CI ESD
Article:	RV20024	EU Regulations:	EN ISO 20345:2011

DESCRIPTION

S3 SRC CI ESD protection class water-repellent safety shoes with soft nubuck-effect microfibre. These low-cut safety shoes, with a lightweight Airtoe® Aluminium toecap, feature a new generation ultra-light PU compound sole that is abrasion-resistant, oil-resistant, non-slip and anti-static. The brand new perforation-resistant system, consisting of a puncture-resistant textile insole, makes this style of safety shoes lighter than traditional models. In fact, the use of highly innovative materials for the construction of the sole and the perforation-resistant system, together with the aluminium toecap have allowed a considerable reduction in the overall weight of work footwear to the benefit of worker's wellness and performance. Safety shoes with special protection of the sole from the cold, ideal for: electricians, carpenters, craftsmen, warehouse workers, and the transport and logistics sectors. Foot comfort and health guaranteed by the U-Power Original insole in lightweight, comfortable and breathable polyurethane compound, and the air tunnel lining that ensures air circulation. Safety shoes suitable for men and women.

UPPER

Nubuck-effect, water-repellent microfibre
